Subject Task I Statement of Work

This memo is to confirm your verbal instructions to accomplish the following as part of the contract Imagery Experimentation Support FY 69 during 16 June through 31 July 1969.

(Estimated Time
in Weeks) Work Code

- a. Manage and arrange camera flight tests. 1.5 03

This effort will include one or two tests of a camera system planned to obtain one inch ground resolution. Specially made object resolution targets and resolution bar targets will be used.

- b. Evaluation and report of flight tests. 1 04

An evaluation report will be prepared and delivered to the sponsor. The reports will include imagery samples and camera data.

- c. Line scan/photograph GOB testing. 2 03

This effort will involve the administering of tests to 50 subjects over a two week period. The test results will become part of a final report and briefings on the study.

- d. Aberdeen flight test planning. .5 04

This effort involves the planning and coordination necessary to fly over military vehicles and take groundphotos of the vehicles for a second Ground Order of Battle study.

- e. Imagery for new DED equipment, status and final reports and miscellaneous requirements. 1 04

About twenty photographs will be processed and delivered to the sponsor. A final report on last years study and a status report for the month of July will be delivered. Any miscellaneous requirements will be preformed at your request. 6 weeks
